L'HOESTI  
MONKEY

Dear Colleagues iam venerable, iam proud of my beauty iam terrestrial. I like to feed on grubs. At times i climb trees and feed on Sweet fruits. The sun finds me awake for they say "early to rise early to fall."

I can now introduce my self iam called L'HOESTI MONKEY and iam the only.

Monkey with an apostrophe in my name iam very excited to be living in a beautiful healthy and quiet environment. I like staying with Red-tailed Monkeys, Blue Monkeys and Black and white Colobus Monkeys.

With Love
